Congratulations to Theresa Johnson, who was given the Rising Star trainer award for the Central Ohio region, and Jim Still-Pepper, who was honored with the Linda Pope trainer award. A future listserv will announce the Western and Northern Ohio honorees.

Trainer Files

Recently we took the next step in having one central, secure location for trainer documents. Each RTC director identified who on staff needed to have access to trainer files. Each identified person then received an individual username and password to access the trainer files on IHS' server via a secure SharePoint web portal. RTCs were instructed not to share their username or password with anyone, not even co-workers. In addition, the following message is shown each time they log in:

The workshop materials (outlines, handouts, and PowerPoint Presentations) contained in these folders are the intellectual property of the trainers who created them. The materials are to be used only by designated RTC and IHS staff in preparation for a workshop and are not to otherwise be distributed without the trainer's written permission.

New TOT

We are happy to announce the pilot of a new TOT for OCWTP trainers. Lisa Dickson will present *Strategic Sharing* at the CORTC on Friday, May 28, from 9-12. This workshop will help you determine what experiences to share, and when and how to share them to highlight key points in your presentation. When presented appropriately, personally stories can lend credibility and enhance transfer of learning. To register, contact Debra Sparrow at dsparrow@ihs-trainet.com.
