

Trainer Feedback on Evaluation Surveys

OCWTP evaluation activities will be quite different in the future with E-Track. A few of the major changes will be:

- Hard copy evaluation surveys will no longer be completed at the end of workshops. Instead, trainees will complete evaluation surveys online back in their agencies.
- Many workshops will have an evaluation survey designed just for that workshop. For example, a survey will be developed for each Caseworker Core, each Supervisor Core, and each Assessor workshop.
- The evaluation surveys are focusing on assessing learning and transfer of learning.

We are currently field testing several of our new evaluation surveys; you have access to all of the new surveys on IBackup, in the E-Track Ready Forms folder, then Surveys folder. **Please take a moment to click on the link below** and provide your feedback on the evaluation surveys.

If you have any questions, contact Pam Quigley at pquigley@ihs-trainet.com. Your feedback is very important. Thanks.

Content Outlines

The Deadline for submitting content outlines was October 31, 2009. Trainers who submitted their outlines will have their information entered into E-Track *prior* to the go-live date. Please note it may be several weeks before you receive confirmation that your workshop has been approved, as we must review several hundred workshops.

Trainers may continue submitting outlines as they are completed. However, these workshops may not get entered into E-Track until *after* the go-live date. Because OCWTP can only schedule workshops in E-Track, you may miss out on a training opportunity.

Thanks to each of you for all the hard work and effort you have made. You have outstanding workshops!
